

**IAEA**

International Atomic Energy Agency

*Atoms For Peace*

**Seibersdorf Laboratories**

**Certificate of Participation  
in the IAEA Proficiency Test**

Issued in Seibersdorf, on 15<sup>th</sup> June 2009, to:

**MR. CHRISTOS ATH. MARAMATHAS**

from

**NUCLEAR TECHNOLOGY &  
ENVIRONMENTAL LABORATORY  
TELEDOS LTD  
GREECE**

**for participation in the:**

**IAEA-CU-2007-03 WORLD-WIDE OPEN PROFICIENCY TEST ON THE  
DETERMINATION OF RADIONUCLIDES IN SOIL, SPINACH AND WATER**

**Organized by the International Atomic Energy Agency  
Reference Materials Group, Chemistry Unit, PCI, NAAL**

November 2007 - June 2008

This test was organized by the IAEA, in accordance with the guidelines of the ISO/IUPAC International Harmonized Protocol for Proficiency Testing of the (Chemical) Analytical Laboratories, © IUPAC, 1993.

Each participant received a detailed report on his/her performance. This report included an evaluation of the trueness and precision of the reported data and where possible, suggestions or reasons to explain any large discrepancies. A final report containing an evaluation of all participants was issued by the IAEA Reference Materials Group which can be downloaded from [http://www.iaea.org/programmes/aqcs/interlab\\_studies.shtml](http://www.iaea.org/programmes/aqcs/interlab_studies.shtml). In this latter report, all laboratories have been assigned a code to ensure anonymity and therefore identification of a particular laboratory's results can only be obtained with the agreement of that laboratory.
